The Society founded in 1863, is the second oldest Entomological Society in North America and among the nine oldest, existing entomological societies in the world. It serves as an association of persons interested in entomology and is dedicated to the furtherance of the science by holding meetings and publication of the Journal of the Entomological Society of Ontario. The Journal publishes fully refereed scientific papers, and has a world-wide circulation. The Society headquarters are at the University of Guelph. The Society’s library is housed in the McLaughlin Library of the University and is available to all members.

An annual fee of $30 provides membership in the Society and a subscription to the Newsletter. Students, amateurs and retired entomologists within Canada can join free of charge. Publication in and access to the Journal is free to all members and non-members.
